

Survey

A survey to assess the training needs for employability skills among STEM Ph.D. students and early career researchers in India has been initiated under project iRISE of INSPIRE MANAK program. iRISE's mission is to connect the academic strengths of early career researchers, including Ph.D. students and Postdocs, with the dynamic prerequisites of employability skills in today's employment landscape. To get a better understanding of the student's career aspirations and training requirements, insights from the STEM* Ph.D. students and Postdoctoral Researchers from various universities are being collected via an Online Survey as provided below:

[Survey on 'Training Needs for Employability Skills' Among STEM Ph.D. Students and Early Career Researchers in India - conducted by Project iRISE](#)

INSPIRE Fellows and INSPIRE Faculty fellows may join the survey and provide their input.

The link for the survey is given below:
